

Dear Parents,

We are all going through a very tough time due to COVID-19. Due to this unprecedented situation the educational institutions have been closed down and we have to follow the 'lockdown' for safety. This may lead students not to remain focused. Dear parents, now is the opportunity for all of you to guide, mentor and teach your child in the best possible way. I would like to assure parents that academic support is our greatest concern so that learning process is not impeded. Our teachers are working hard to prepare lessons, assignments, worksheets, project topics and many more for students that can be done at home under your guidance. Teachers are taking classes via zoom app, Google hangout, YouTube videos, self-created YouTube videos, audio contents, WhatsApp, School Website and written materials. Not only this Extra Marks app, Diksha app and CBSE Shiksha Vani app are also being utilised for teaching and learning process. Students of classes X and XII need not worry as the school and board will surely consider a positive way out for all .The school is taking special care for these classes. Please remain calm and composed. Parents are kindly requested to encourage their children to complete the assignments, projects and help them to be engaged in regular study regime. Also encourage your child to learn time management, discipline and acquire some interest in a skill of their choice. I assure you that this time will have a net positive effect on the child. Last but not the least ,I would like to extend my heartfelt thanks to all the sincere and dedicated teachers who have taken this challenging time positively and are contributing a great deal for the students inspite of the various constraints as others .

Dear parents let us come together and stand strong and be triumphant in this testing time. We seek your continuous support and cooperation. I pray God for the Safety of all stakeholders of our school, please take care of yourself, family, elderly, neighbours and needy. Help those who need your support.

Stay at home and save lives!

Regards,

Principal
